PROFESSIONAL SUMMARY

Results-driven AI & Data Science graduate with hands-on experience in Machine Learning, Deep Learning, Data Engineering, ETL Pipelines, NLP, LangChain, FastAPI, SQL, and Cloud platforms. Built scalable AI systems, dashboards, predictive models, and automation pipelines. Seeking entry-level opportunities as Data Analyst, AI Engineer, Python Developer, Machine Learning Engineer, or Data Engineer.

EDUCATION

B.Tech – Artificial Intelligence&DataScience	Velammal Institute of Technology,Panchatti	|CGPA: 8.74 | 2022–2025
Higher Secondary Certificate	Velammal Matric HSS, Ponneri	|Percentage: 82% | 2022–2021
Secondary School Leaving Certificate	Velammal Matric HSS, Ponneri	|Percentage: 66.8% | 2019–2020

TECHNICAL SKILLS

Languages	: Python, SQL, Java, R
Machine Learning	: Scikit-learn, TensorFlow, Deep Learning, CNN, NLP
Data Science	: Pandas, NumPy, EDA, Feature Engineering
Data Engineering	: ETL, Data Cleaning, Data Pipelines
LLM / GenAI	: LangChain, LangGraph, RAG, ChromaDB
Visualization	: Power BI, Tableau, Matplotlib, Seaborn
Cloud / Tools	: AWS, Azure, Git, Linux, FastAPI, REST APIs
CoreConcepts	: Statistics, Probability, DBMS, OOP, DSA (Arrays, Strings)
Soft Skills	: Analytical Thinking | Problem Solving | Data Interpretation | Communication | Team Collaboration | Attention to Detail

INTERNSHIP EXPERIENCE

CyberSecurityInterninCYBERFORGE Pvt. Ltd. **Aug 2024 – Sep 2024, TamilNadu, India**

- Analyzed network trafficandsystemlogstoidentifyvulnerabilities, improvingthreat detectionawareness by30%
- Assisted in basic vulnerability assessment and security audits, contributing to a 25% reduction in identified security gaps during simulated assessments
- Strengthened understanding of cybersecurity frameworks and data-driven risk analysis in enterprise systems

DSA Intern in INTRAINZ **Dec 2024 – Jan 2025, TamilNadu, India**

- Implemented andoptimized Python-baseddata structures and algorithms,improving solutionefficiencyby35%
- Reduced time complexity in problem-solving tasks by 30% through optimized logic and algorithm selection
- Solved algorithmic problems, enhancing coding accuracy and logical reasoning

PROJECTS

BusinessIntelligence & Analytics System for Retail Decision-Making
Tech: Python,SQL,PowerBI/Tableau, Pandas,Excel.

- Builtan end-to-endanalyticspipelinetoanalyzeretailsalesandcustomerbehavior, created interactive dashboards, and delivered data-driven insights to improve revenue, profitability, and operational decisions.

Autonomous Agentic AI Assistant & Persistent Memory Pipeline
Tech: Python, LangChain,LangGraph,Google Gemini 1.5Flash,FastAPI, ChromaDB, WebSockets, Playwright, Railway.

- Developed an end-to-end autonomousAI assistant usingLangGraph with a ReAct orchestration pattern to automate research and developer workflows. Implemented a persistent memory system using ChromaDB vector database for long-term semantic retrieval and contextual reasoning

CERTIFICATIONS

- Python for Data Science – NPTEL
- Machine Learning – Coursera
- R-tool – Aynavil
- DBMS – Aynavil

LEADERSHIP

- Student Coordinator – Technical Symposium
- Participated in hackathons and coding events
- Volunteered for technical workshops and peer mentoring

LANGUAGES

1. English – Proficient 2. Tamil – Fluent 3. Telugu – Native 4. Japanese – Beginner
